2500 GPD REVERSE OSMOSIS WATER SYSTEM

- **Spot Free Water System**
- **Vertical Holding Tank**
- **Hydro-Mag Water Conditioner**

Industrial Duty Reverse Osmosis System With Pretreatment, Storage Tank, & Distribution Pump

Hydro-Magnetic Water Conditioner and Storage Tank sold separately

STANDARD FEATURES RO:

- Powder-Coated steel frame. Protects against corrosion.
- F & W 15 stage high-pressure pump.
- Thin film composite membrane. Removes 98% impurities.
- Central control panel with indicator lights. Great for trouble shooting.
- Automatic hourly flush extends life of membrane.
- Liquid-filled high-pressure gauge. Make adjustments easily.
- Low-pressure shut-off switch. Protects pump.
- Adjustable waste and recycle needle valves. For up to 50% recovery.
- Product and waste flow meters. For readings at a glance.
- 5 micron pre-filter. For membrane protection.
- Inlet and outlet pre-filter gauges. Easy to read.
- High-pressure brass compression fittings.
- High-Pressure nylon tubing. Built to last.

- **Save a ton of money by producing your own spot free water**
- **Optional distribution pump allows you to supply water all around your building and/or quick fill a mobile wash tank**
- **Automatic flush valve reduces routine maintenance duties**
- **Pre-filter and Post-filter pressure gauges ensure longest life of pleated filter**
- **Compact space saving design**
- **Many tank sizes available to fit your needs**

Hydro-Magnetic Water Conditioner:

- Fully Automatic, user friendly
- Keeps RO membrane from fouling.
- Removes Chlorine and Iron.
