

How **CLEAN** gets you what you want ...

Efficient, Effective and Safe is the goal for your operations, but there are often many obstacles that can stand between what you want and how things actually tend to operate. It doesn't have to be that way.

CLEAN Accountability Plan

Our **CLEAN** Accountability Plan is defined to keep your system working more efficiently, more effectively and more safely each and every time. Designed to help you get the benefits of **CLEAN**, Hotsy of Southern California's accountability plan includes:

- Comprehensive tune up of your present system to get everything working at peak performance
- Accessories to increase effectiveness of your system and efficiency of your system
- A **CLEAN** Accountability Plan customized to your situation based on machine usage
- Complete analysis of your chemical needs to meet each and every application
- Operator and safety training to ensure proper system usage

What You Want From **CLEAN**

Good inspections

Quick and effective preventative maintenance

Operator care/pride

Operators (fully staffed/absence)

Compliance with safety and regulations

Plenty of work orders

What You Get From **CLEAN**

Dirt, grime and grease hide problems – cleaning highlights them

Maintenance performed on **CLEAN** equipment is done better and in less time

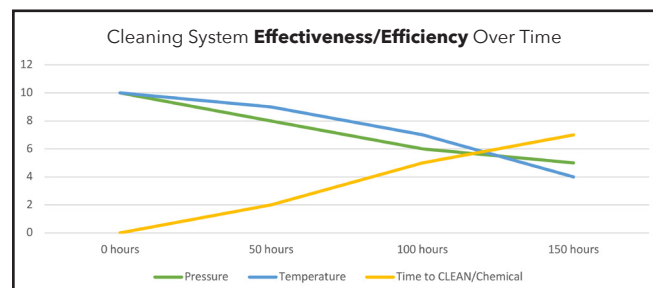

Employees take better care of **CLEAN** facilities and equipment

Recruiting and retaining great operators is easier if operations are **CLEAN**

CLEAN facilities and equipment promote a safer environment

Your operations/vehicles reflect your brand, and **CLEAN** promotes it

CLEANING should not be looked at as an expense, but instead as an **INVESTMENT** that will provide a good return in many ways.

Call **Hotsy of Southern California** to get **CLEAN** today.
