SJ SERIES

Spin right round to clean

The newest addition to the Cuda top load line-up, the SJ-15 uses a patented spray wash technology which eliminates the need for a drive motor, gears and pulleys. Using a water-propelled spray arm with 23 nozzles that spin around a stationary parts basket, parts are hit from every angle while being cleaned. It has a 350-lb. load capacity, and a basket dimension of 32" x 21", 90 gallon sump capacity, 3 HP pump motor delivering 37 GPM @ 30 PSI.
